### Education News

A big thank you to all the teachers and schools who have subscribed to our online resource service in 2008. Our organisation is entirely run by teachers for teachers and is non-profit making in every respect. Your school's support ensures that our service can continue.

Just to summarise the subscription currently gives you access to:

- Y12 and 13 2008 examination papers
- Y12 and 13 Examination papers from each of the past seven years
- 2.7 2008 assessment (fully moderated to meet NZQA requirements)
- 2.7 2004, 2005 and 2006 assessments (fully moderated to meet NZQA requirements)
- Neat Zippy V (an enormous collection of great resources)
- Physics Teachers Guide
- 3.1 (90774) – four tasks all fully moderated to meet NZQA requirements
- A wide range of unit standard resources
- Knowledge, Skills and Applications in Y12 Physics
- 9 AC demonstrations
- Neat Zippy IV
- A new moderated 2.1 (90252) task enables teachers to assess students across a range of practical experiments rather than in a "one-off" situation.

We no longer sell any physical copies of our resources. All our resources are now available online.

As you can see NZIP are committed to providing a quality, affordable service for all physics teachers in New Zealand.

Our hosted website is going through a transition stage – we now have a new provider.

Teachers may find that the website changes appearance early this year as we undergo further changes with our provider. Your patience and understanding is appreciated.

### Other news

- **International Journal Recognition** – contact David Housden if you wish to have your material published in the internationally renowned journal, Physics Education. Articles do not have to be very long. They can just be clever teaching ideas – short and snappy thoughts etc.
- Don't forget that there is a physics **listserv** for teachers. The listserv has been updated and all previous members now have access to the "new and improved" service. You can find all the details on our website – check out [www.nzip.org.nz/es](http://www.nzip.org.nz/es). The list is an excellent way for physics teachers to communicate!!

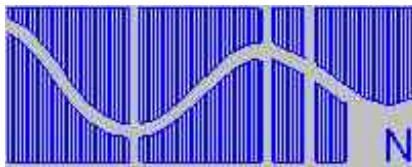

If you have any other suggestions for resources you would like to see produced please contact any one of the committee. See details below.

All the best David Housden

Newsletter February 2008

## Subscription Invoice 2008

**Please pay NZIPES the sum of \$100 (GST incl)** being the 2008 subscription for access to all levels of the NZIPES Assessment Tasks and Teaching Resources on the NZIPES website - [www.nzip.org.nz](http://www.nzip.org.nz) (click on the Education Section link)

After payment is received a unique username and password will be returned to the school (via email) for use during 2008. A valid **school** email address must be provided.

**Send to: Beverley Booker  
Education Section NZIP  
PO Box 598  
Wellington**

These exams and resources are for the use of physics teachers and are not available to students or external tutors to buy. We would prefer school cheques for that reason. Personal cheques will be checked to confirm they are from a teacher.

**Please make cheque payable to "Education Section NZIP".  
ORDERS WITHOUT PAYMENT WILL NOT BE PROCESSED.  
Receipted invoices will not normally be issued. GST No 50-978-940.**
